

Welcome to the stage  
of the name game.

The close game that the Ozaki brothers battled.  
The dramatic water shot of Ryo Ishikawa.  
The revival championship of Yuta Ikeda, choking  
with tears.

How will you attack the ultimate 18 holes, of which  
various pro golfers have waged numerous excellent  
games?

As a course tour from the view of an average golfer,  
we have added the remainder yard notation from  
each shot point, as well as thorough descriptions of  
each hole.

Let's conquer this championship golf course while  
thinking about the dramas played at this course.

# Playing Guide -from an average golfer's point of view

This playing guide explains the strategy from a golfer's point of view, with tips that you cannot figure out from a simple course map.

Not only by adding the remaining distance from each shot point, we have added the appearances of the places which cannot be seen from tee ground.

The direction of tee shot view and field angle

★: The starting point from which the distance is measured

**About the indication of the course map**

All distance of the tee shot calculates starting from regular tee.

The distance of second shot and third shot is measured from random points that we set on each hole.

The yard notation is calculated by the player of approximately 200-220 yards of flying distance of driver shot, handicap of about 15-25 as model.

\*The distance indicated is the numerical value that we measured by a laser distance meter. Please note that there may be slight measurement error.

	Total Yardage / Course Rate
Champion Ship	7,235y / 74.9
Back	6,740y / 72.5
Regular	6,342y / 70.5
Ladies	5,673y / 73.0

OUT COURSE

# 1<sub>H</sub>

Par4	HDCP9
Champion	421yd
Back	402yd
Regular	387yd
Ladies	330yd

**Tee Shot**

A magnificent, gentle downhill par 4, suitable for starting hole. Since the fairway inclines toward left, it is better to attack from the right. Long knockers should be careful not to cross the bunker on the left to avoid the pond awaiting on the back.

●:Distance from regular tee(=◆)

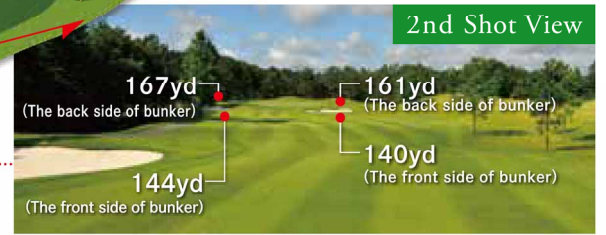

**2nd Shot**

Second shots hit to the right may find the right bunker guarding the green. It is better to attack for the center, regardless of the pin position. The cross bunker on the right is deep, so do not take a risk; use a short iron, and reach the apron.

**Approach Shot and on the green**

The green has a mound on the right which gives you a tough and fast fall line.

★:150yards to green edge

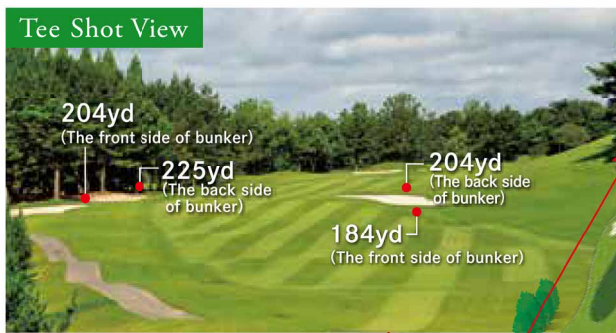

# 2<sub>H</sub>

Par4	HDCP3
Champion	450yd
Back	423yd
Regular	386yd
Ladies	363yd

**Tee Shot**

A long, dog-leg right par4. The ideal tee shot would favor the right side of this fairway to avoid the left side bunker and O.B.. Long knockers should aim the left side of the bunker at the right to get to the best position of fairway. Short hitters may find it difficult to cross the bunker, but be careful not to hit too much to the left.

●:Distance from regular tee(=◆)

★:150yards to green edge

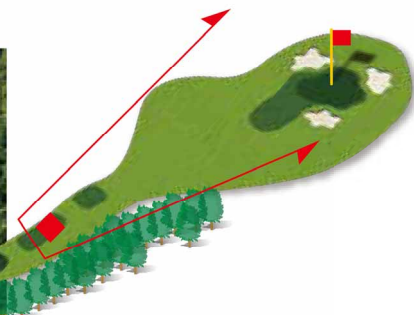

# 3<sub>H</sub>

Par3	HDCP11
Champion	215yd
Back	187yd
Regular	172yd
Ladies	131yd

**Tee Shot**

Although rather long par 3, it is a definite par-able hole. The tee shot must avoid the bunker on the right side and hit from the center, even if the pin location is on the right. If you carry the ball on the back side of the two-tier green, it is likely to go over the green. Always attack from the front.

●:Distance from regular tee(=◆)

OUT COURSE

# 4<sub>H</sub>

Par5 HDCP1

Champion	576yd
Back	550yd
Regular	532yd
Ladies	501yd

**Tee Shot**

A long par 5, dog-leg right from second shot, and then dog-leg left towards the green. The best tee shot is to aim the left side of the fairway, avoiding the O.B. near the right side bunker.

•:Distance from regular tee(=◆)

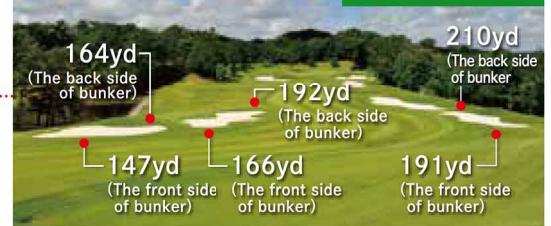

**Tee Shot View**

**2nd Shot**

Long knockers should cross the bunker on the left side to come close to the green. But beware that you don't yank to the left and get into the pond in O.B. zone. If you're in regulation, it is definitely wise to go from the right side of the fairway.

**2nd Shot View**

★(sprinkler):273yards to green edge

# 5<sub>H</sub>

Par4 HDCP13

Champion	375yd
Back	353yd
Regular	336yd
Ladies	301yd

**Tee Shot**

A straightforward, uphill par 4 that requires a tee shot to the left, since the fairway slopes from left to right. Avoid the Zelkova tree on the left side, not to give you a second shot crossing the left side bunker. The left to right wind or tee shots into the wind tend to be O.B..

•:Distance from regular tee(=◆)

**Tee Shot View**

**Approach Shot and on the green**

A two-tier green which is sloped from back to front. The toughest pin location is on the right side of the green, which has a gentle mound. The front tier has relatively little undulation so that you may misread the line.

# 6<sub>H</sub>

Par5 HDCP5

Champion	567yd
Back	532yd
Regular	516yd
Ladies	472yd

**Tee Shot**

A long, dog-leg par 5. It would take two shots to reach the corner of the dog-leg. Players should attempt to keep their tee shots at the right side of the fairway to avoid the bottomless ravine (Jigokudani) on the left. If the ball goes into the ravine, it is better to bail out rather than to aim at the green.

•:Distance from regular tee(=◆)

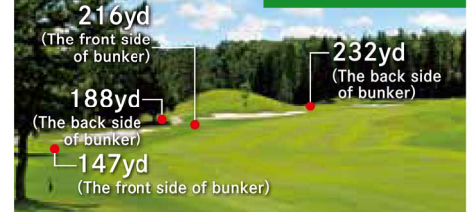

**Tee Shot View**

**2nd Shot**

The best position for long knockers should be the skirt of the mountain at the right, or the bunker on the left side of the green. For others, try not to hit too much to the right. Otherwise you may have to hit the third shot from the mountain, or find the tree avoiding the third shot in aiming the green.

**2nd Shot View**

★:250yards to green edge

OUT COURSE

# 7<sub>H</sub>

Par4	HDCP17
Champion	362yd
Back	354yd
Regular	344yd
Ladies	313yd

**Tee Shot**

A gentle downhill par4. The ideal tee shot should favor the center or the left side of the fairway to avoid the right side bunker and O.B.. If you hit too much to the left, the pine grove will get in the way.

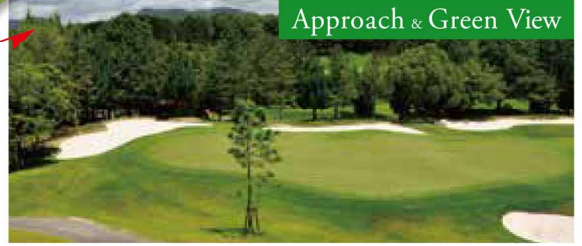

◆: Distance from regular tee(=◆)

**2nd Shot**

Second shot would be mostly downhill lie from anywhere. If the pin location is at the highest of the three-tier green, it makes you difficult to stop on the green and go over. Try to keep the shot on the second tier. Take into consideration that shots from downhill lie tend to be low with a lot of run.

Approach & Green View

# 8<sub>H</sub>

Par3	HDCP15
Champion	226yd
Back	195yd
Regular	171yd
Ladies	123yd

**Tee Shot**

This par 3 features a flat green that easily makes you go over the green. This hole also features bunkers on both sides of this green that may capture inaccurate shots. It is wise to hit the center of the green, regardless of the pin location.

Approach & Green View

**Approach Shot and on the green**

Shot from the left side of the green leaves you with a downhill putt. It is better to place your shot on the right side of the green that will give you an uphill putt. Although the back side of the green has a mound, this green is relatively flat and easy.

# 9<sub>H</sub>

Par4	HDCP7
Champion	424yd
Back	398yd
Regular	372yd
Ladies	339yd

**Tee Shot**

Since the fairway of this par4 has a bump, players must carry far enough to cross the bump. Your tee shot should favor the left side of the fairway to avoid the right side bunker adjoining O.B.. However, a drive that is pulled too much to the left may leave you a shot from the woods. Shot accuracy is essential on this hole.

◆: Distance from regular tee(=◆)

Approach & Green View

**2nd Shot**

The right side of the green is downhill, with woods awaiting. Second shot to the direction slightly center right of the green may hit a tree and fall under. Always aim from the left.

**Approach Shot and on the green**

Since this green is elevated on the right and is undulating on the whole, you must read the lines carefully before putting. Approach shot from the right leaves you a difficult fall line.

# 10<sub>H</sub>

Par4 HDCP8

Champion	441yd
Back	404yd
Regular	382yd
Ladies	331yd

●: Distance from regular tee (=◆)

**Tee Shot**

A gentle uphill par 4. There is a troublesome valley at the right of the right side bunker. You should aim at the left side of the fairway.

**Approach Shot and on the green**

The green has relatively little undulation. The back left of the green is sloped from front to back. If the pin location is on the back left, approach and putt could be very difficult because the putt would be first uphill then downhill.

**2nd Shot**

Both sides of the green are narrow and O.B.. Shot accuracy is essential. Since it is slightly uphill to the green, you tend to be short of the green.

★: 150yards to green edge

# 11<sub>H</sub>

Par4 HDCP2

Champion	457yd
Back	432yd
Regular	395yd
Ladies	343yd

●: Distance from regular tee (=◆)

**Tee Shot**

Long knockers should avoid the left side of the fairway, since it would be O.B. if you go across the left side bunker. The aiming point for long knockers is to cross the right side bunker. Short hitters should aim at the center or slightly left side of the fairway to avoid the right side bunker.

**Approach Shot and on the green**

The green is sloping fro back to front and has mounds so read the green carefully.

**2nd Shot**

Second shot would be mostly downhill lie with mound on the back left and right-center of the green. Therefore, a high level of skill is required. Players should attempt to keep their approach shots below the hole, even if the pin location is on the back.

★: 150yards to green edge

# 12<sub>H</sub>

Par3 HDCP14

Champion	193yd
Back	177yd
Regular	168yd
Ladies	119yd

●: Distance from regular tee (=◆)

**Tee Shot**

The green is elevated, narrow at the front. If you go over the green, it leaves you with a difficult line. With bunkers on both sides, always attack the center of the green regardless of the pin location. Since the left of the left side bunker is O.B., the ideal shot would favor the right side.

Par5 HDCP6

Champion	535yd
Back	500yd
Regular	483yd
Ladies	466yd

●: Distance from regular tee(=◆)

### 2nd Shot

Your second shot should aim the right side of the fairway, avoiding the left side O.B.. The right side of this green is well protected by two bunkers in a row. Avoid the forefront bunker, leaving a sand shot of 50 to 70 yards.

★: 248yards to green edge

### Tee Shot

A dog-leg left par 5. Your tee shot should favor the right side of the fairway, avoiding the left side O.B. extending to the green. Long knockers should be careful of the left; if you cross the left side bunker, there is a ravine and tend to be O.B.. The bunker on the right side has high lip. The woods at the right is troublesome. Tee shot accuracy is essential on this hole.

### Approach Shot and on the green

A two-tier green which is sloped from back to front. Downhill putt can be very fast. If you go over the green, it would be a difficult downhill approach. Players should attempt to keep their approach shots below the hole for an easier putt.

IN COURSE

# 16<sub>H</sub>

Par3 HDCP16

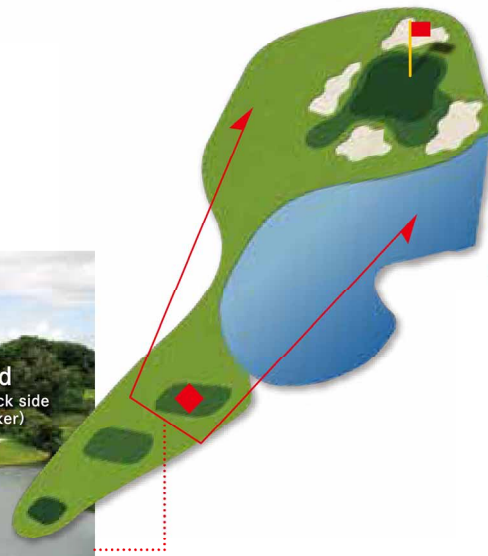

Champion	221yd

Regular	159yd
Ladies	146yd

### Tee Shot

A picturesque water hole par 3. There is a pond at the front right side, and the green is well protected by four bunkers. The shots of this downhill hole can be easily affected by the wind. The correct club selection is essential in this hole. The sand shot from the left side bunker forces you a downhill difficult shot. If the pin location is on the left, you should carry your shot onto the center or slightly right side of the green.

●: Distance from regular tee(=◆)

### Approach Shot and on the green

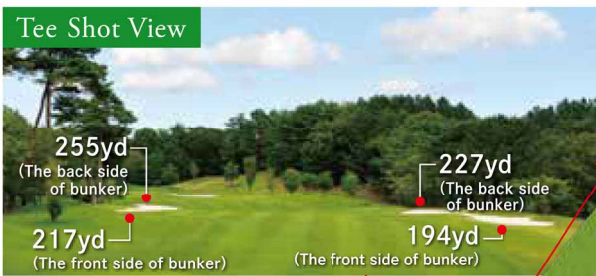

There is a mound on the front left side of the green, and sloped from right side of the back to front. The ideal area for the approach shot is from the front right side, leaving you with an uphill line. Putts affected by the left side mound could be breaking and difficult. There is subtle undulation on the other areas of the green. Read the line carefully. This hole is beautiful with azaleas in spring and it is also famous for the beautiful colored leaves in autumn.

# 17<sub>H</sub>

Par4 HDCP4

Champion	439yd
Back	413yd
Regular	397yd
Ladies	322yd

### Tee Shot View

●: Distance from regular tee(=◆)

### Tee Shot

With O.B. on the left and pond on the right, this long par 4 can be stressful. You should take the wind direction into consideration and follow through. Your tee shot should favor slightly right side of the fairway to avoid O.B. on the left.

★: 150 yards to green edge

### 2nd Shot

It is wise to attack from the right side to avoid O.B. on the left. The fairway is slightly uphill. Try to avoid the bunker on the left side, since it has high lip. This hole is famous for the beautiful cherry blossoms in spring.

### Approach shots and on the green

The green is sloped from the center to the front. There is a small tier on the back left. Putting lines concerning this tier can be very difficult. The lines could be fast from the back on the whole.

IN COURSE

# 18<sub>H</sub>

Par 5 HDCP 12

Champion	525yd
Back	510yd
Regular	481yd
Ladies	444yd

◆: Distance from regular tee (=◆)

### Tee Shot

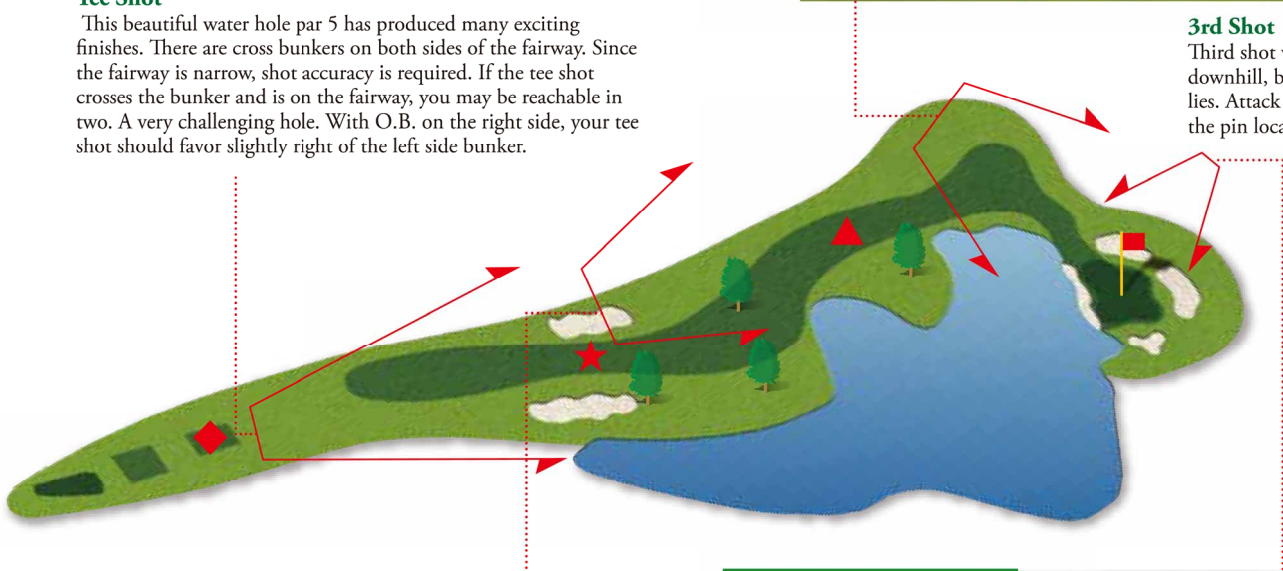

This beautiful water hole par 5 has produced many exciting finishes. There are cross bunkers on both sides of the fairway. Since the fairway is narrow, shot accuracy is required. If the tee shot crosses the bunker and is on the fairway, you may be reachable in two. A very challenging hole. With O.B. on the right side, your tee shot should favor slightly right of the left side bunker.

▲: 100yards to green edge

### 3rd Shot

Third shot would be mostly downhill, below your feet lies. Attack from the left of the pin location.

★: 222yards to green edge

### 2nd Shot View

### 2nd Shot

A good drive crossing the bunker leaves you 200 to 220 yards, giving you the best shot at reaching the green in two, going over the pond. Players must carry far enough to cross the pond. Since the fairway sloping from left to right, making it easier for the ball to roll over into the pond, attack from the left side of the fairway if you want to layup.

### Approach & Green View

### Approach Shot and on the green

A three-tier green high at the center and low at left and right. The best putting line is from the level area of the green. The worst putting line would be concerning the center tier. With ups and downs, it makes you difficult to expect the distance. The putt from the lower tier is rather uphill, so hit it solid. Crape-myrtles are beautiful in the summer.
